JOURNAL OF
SOFTWARE
MAINTENANCE
AND EVOLUTION
RESEARCH AND PRACTICE

CONTENTS

Volume 15 Number 1 January–February 2003

Special Issue
Process Diversity

Process diversity
I. Rus, C. Seaman and M. Lindvall 1

Latitudinal and longitudinal process diversity
N. T. Siebel, S. Cook, M. Satpathy and D. Rodríguez 9

Tailoring the software maintenance process to better support complex systems evolution projects
P. Donzelli 27

Test processes in software product evolution—a qualitative survey on the state of practice
P. Runeson, C. Andersson and M. Höst 41

Volume 15 Number 2 March–April 2003

Maintaining electronic commerce systems: the legal issues
M. Taylor 61

The software maintenance project effort estimation model based on function points
Y.-S. Ahn, J. Suh, S. Kim and H. Kim 71

Software visualization in software maintenance, reverse engineering and re-engineering: a research survey
R. Koschke 87

Volume 15 Number 3 May–June 2003

Integrating diverse paradigms in evolution and maintenance by an XML-based unified model
C.-W. Lu, W. C. Chu, C.-H. Chang, D.-L. Yang and W.-D. Lian 111

Architecture-based semantic evolution of embedded remotely controlled systems
L. Chung and N. Subramanian 145

Determinants of software volatility: a field study
X. Zhang, J. Windsor and R. Pavur 191

Volume 15 Number 4 July–August 2003

Feed-forward and recurrent neural networks for source code informal information analysis
E. Merlo, I. McAdam and R. De Mori 205

A case study on the adaptive maintenance of an Internet application
S. Bergin and J. G. Keating 245

A user-assisted approach to component clustering
K. Sartipi and K. Kontogiannis 265

Volume 15 Number 5 September–October 2003

Observe-mine-adopt (OMA): an agile way to enhance software maintainability
J. Huffman Hayes, N. Mohamed and T. Hong Gao 297

An effective strategy for legacy systems evolution
M. Rhagozar and F. Oroumchian 325

Dimensions of reengineering environment infrastructures
S. Ducasse and S. Tichelaar 345

BOOK REVIEW
Advances in Software Maintenance Management: Technologies and Solutions edited by M. Polo, M. Piattini and F. Ruiz
Reviewed by C. Seaman 375

Volume 15 Number 6 November–December 2003

Automated elicitation of inclusion dependencies from the source code for database transactions
H. B. K. Tan and Y. Zhao 379

Guaranteed inconsistency avoidance during software evolution
K. Gallagher, M. Harman and S. Danicic 393
